SEA ADDS PORTABLE SHOL TRAINING APPLICATION

Cohort company SEA is providing a new portable training application to the Royal Norwegian Navy enhancing its DECKsim Flight Deck Officer training system.

SEA will supply a Ship/Helicopter Operating Limits (SHOL) training application on a ruggedized laptop that will allow trainees to understand the impact of different environmental and operational constraints upon the safe operating limits for helicopters operating from Royal Norwegian Navy ships.

Use of the training application will highlight the safe range of wind speeds and directions for each operational procedure to be carried out on the ships flight deck, re-enforcing the knowledge, skills and attitudes required by the Flight Deck Officers.

SEA's DECKsim Flight Deck Officer trainer is in use both in the UK and overseas. The use of a ruggedized laptop now takes DECKsim training outside of the classroom and allows trainees to conduct refresher training whilst doing airfield training simulating the conditions on a ship.

Traverse System (ASIST)

- SEA will be located on Stand 39 at ITEC, Rotterdam

- Ends -

Notes to Editors:

Cohort plc is an independent technology company and the parent company of four innovative, agile and responsive businesses, EID MASS, MCL and SEA, providing a wide range of services and products for UK, Portugal and international customers in defence, security and related markets.

www.cohortplc.com

SEA was acquired by Cohort plc in 2007 and today is a major supplier of applied research, technology development, systems integration, specialist electronic systems, engineering and software design services to the defence and security markets. Its engineering and project management skills include naval communications systems, maritime combat systems, through-life support, dismantled soldier systems, subsea engineering and traffic enforcement. Complementing its work for the UK Ministry of Defence, SEA is growing its business overseas and extending its expertise into adjacent markets, including offshore, railways and roads.

SEA employs circa 300 high-calibre staff and has offices in Beckington, Bristol, Barnstaple and Aberdeen.
